

65 GHz Intensity Modulator

Key Features:

- ▶ > 70 GHz operating bandwidth
- ▶ 1.4 V half-wave voltage
- ▶ V-type (1.85 mm) connector
- ▶ Compact footprint
- ▶ High extinction ratio
- ▶ Stable DC biasing
- ▶ High optical and RF power handling
- ▶ **NEW - Cost-effective** version available!
- ▶ C/L-band, O-band, 1 μ m Coverage
- ▶ Bias controller available

Target Applications:

- ▶ 200 G/lane testing
- ▶ 150 GBaud testing
